

HEWA SAFI AFYA BORA
STOP AIR POLLUTION

airnetworkafrica.com

The Story Behind The Logo

“The green colour represents the environment and nature of our community. The yellow colour represents the nature of our slums – this means that everything in Mukuru has been polluted – starting from the air, water, drainage and natural resources, these are yellow.”

“At the bottom are the industries that pollute the environment and the air we breathe, and a charcoal stove that pollutes the air inside the houses as people prepare food.”

By Mukuru resident and designer of the AIR Network logo, Omae Jared
