 Received 2003 October 17; accepted 2003 October 22

Corrections to the sign of the intercept in the luminosity dependence of the parameter γ were not carried faithfully to the published version of the article. As a result, this dependence (as shown correctly in Fig. 13) is incorrectly reported in Table 5 and the text of § 8.2. The correct relationship is given in the table below. The publisher regrets the error.

TABLE 1
 LUMINOSITY DEPENDENCE OF γ IN $\Delta M = \gamma \log (alb)$

Dependence ($x \equiv M_{\text{ext},K} - 5 \log h + 23$)	<i>J</i> Band	<i>H</i> Band	<i>K_s</i> Band
$x > 0.8$	$-0.26x + 0.77$	$-0.26x + 0.58$	$-0.13x + 0.31$
$x < 0.8$	$-0.04x + 0.60$	$-0.01x + 0.38$	0.20
